Taking Design Thinking to School

How the Technology of Design Can Transform Teachers, Learners, and Classrooms

Edited by **Shelley Goldman**, Stanford University, USA and **Zaza Kabayadondo**, Stanford University, USA

Taking Design Thinking to School: How the Technology of Design Can Transform Teachers, Learners, and Classrooms uses an action-oriented approach to reframing K-12 teaching and learning, examining interventions that open up dialogue about when and where learning, growth and empowerment can be triggered. Through a series of case studies that explore such tensions, the authors demonstrate that design thinking provides students with the agency and compassion necessary for doing creative and collaborative work, both in and out of the classroom. A vital resource for researchers, practitioners, and policymakers, this book brings together some of the most innovative work in design pedagogy.
